## PROFESSIONAL SUMMARY

Full Stack Developer with 3.5 years of experience specializing in React, Next.js, and TypeScript. Proven track record of improving web performance by 30%, reducing load times, and delivering scalable frontend architectures. Experienced in API integrations, AI-powered features, and cross-functional team collaboration across remote environments.

## TECHNICAL SKILLS

**Frontend:** React, Next.js, TypeScript, JavaScript, Tailwind CSS, Redux, Zustand, TanStack Query

**Backend & Database:** Node.js, MongoDB, Supabase, REST APIs, PostgreSQL

**AI & Automation:** LLM Integration (OpenAI / Gemini API), Prompt Engineering, N8N Automation, GitHub Copilot

**Tools & Platforms:** Git, Figma, Adobe XD, Vercel, Docker, Agile Methodology

**CMS:** Hygraph, Appwrite, Headless CMS

## WORK EXPERIENCE

### Software Developer (Contract)

Dec 2025 – Present

*Raveum*

*Texas, United States (Remote)*

- Spearheaded end-to-end architecture of a high-performance Currency Converter for investor and sponsor portals using Next.js and React, handling real-time calculations at scale.
- Architected secure integrations with financial exchange rate APIs, ensuring 100% data accuracy across global investor dashboards and multi-currency reporting systems.
- Designed and deployed reusable, pixel-perfect UI components from Figma designs, improving frontend maintainability and ensuring responsive experience for high-net-worth stakeholders.
- Engineered a dynamic document loading and preview system, reducing initial portal load times and enhancing complex financial workflow efficiency.

### Software Developer II

May 2024 – Nov 2025

*Mozaic Technologies*

*Leiden, Netherlands (Remote)*

- Built and maintained responsive web platforms using React and Tailwind CSS for mobile and telecom ad services, reducing bounce rate by 25%.
- Created high-converting banners for mobile game ads using Figma and Adobe XD, increasing click-through rates by 18%.
- Collaborated with marketing teams to align UI designs with campaign strategies, resulting in 30% improvement in user engagement and lead generation.

### Software Developer I

Aug 2022 – May 2024

*Propelius Technologies*

*Surat, India*

- Led development of responsive web interfaces using React, TypeScript, and Tailwind CSS, improving usability scores by 20%.
- Integrated Next.js to modernize legacy UI, reducing load times by 30% and boosting session duration.
- Utilized Redux and Zustand for scalable state management, improving application performance and reducing data flow bugs.
- Coordinated with cross-functional teams to integrate APIs and UI components, resulting in 25% faster feature delivery cycles.

## PROJECTS

### Afiya | *Next.js, Supabase, OpenAI API, Resend, Vercel*

*AI-Powered Medical Clinic Booking*

- Built a full-stack AI-powered appointment booking system with natural language processing for patient interactions, automated email notifications (OTP, confirmations, reminders), and secure relational database management.
- Integrated LLM capabilities to streamline clinic operations; resolved DNS configuration across Vercel and GoDaddy for production deployment.

### Binge Bucket | *React, Next.js, Tailwind CSS, TMDB API*

*Movie & TV Discovery App*

- Developed a responsive full-stack media discovery platform with mood-based recommendations, real-time search filtering, and a mobile-first grid UI for movies and TV series.

### Infogram | *React, Appwrite, TypeScript, Tailwind CSS*

*Social Media Platform*

- Built a full-stack social platform with secure authentication, real-time content feeds, media uploads, follow/unfollow system, and optimized performance via lazy loading and API caching.

## EDUCATION

### Parul University

Aug 2018 – May 2021

*Bachelor of Technology, Computer Science and Engineering*

*Vadodara, India*

- Built multiple academic projects including dynamic web applications and REST APIs; participated in hackathons and coding challenges.
